

ENVIRONMENTAL POLICY

Modern Steel Mills LLC is committed to environmentally responsible operations, ensuring compliance with all regulations and promoting sustainability. As a steel billet manufacturer, we strive to minimize environmental impacts, optimize resource use, and enhance sustainability through innovative practices.

We commit to:

- **Environmental Protection:** Preventing pollution, managing waste responsibly, and protecting natural resources.
- **Compliance:** Meeting all legal and regulatory environmental requirements.
- **Sustainability:** Balancing economic growth, environmental care, and social well-being.
- **Continual Improvement:** Enhancing environmental performance through monitoring and evaluation.
- **Stakeholder Engagement:** Raising awareness and fostering shared responsibility for environmental stewardship.

Modern Steel Mills LLC, top management is responsible for the establishment & communication of all policies and procedures. The staff shall adhere & implement the same in routine operations.

The policy is reviewed, made available to interested party and amended as appropriate in line with organizational objectives, quality system requirements & business needs.
