

QUALITY POLICY

Modern Steel Mills LLC is a customer oriented organization *manufacturing and marketing continuously cast steel billets.*

We are committed to internal/external customer satisfaction which will be achieved by continual improvement of all its business activities in compliance to legal, statutory, regulatory & other applicable standards.

We ensure constant efforts directed towards development of human resources for achieving higher levels of productivity, worker skills and excellence in performance.

We intend to formally establish and steadfastly pursue quality objectives which provide industry benchmarks and are the guiding principles for:

- Effective implementation and maintenance of Quality Management System in line to the requirements of ISO 9001:2015 standards.
- Meeting all customer requirements and exceed customer satisfaction on a sustained basis.
- Establish mutually beneficial business relation & exercise necessary controls on all third parties including consultants, contractors, sub contractors and suppliers.
- Develop new value added products to explore opportunities.
- Maintain Product Quality as per international standards to have a global reach.

Modern Steel Mills LLC, top management is responsible for the establishment & communication of all policies and procedures. The staff shall adhere & implement the same in routine operations.

The policy is reviewed, made available to interested party and amended as appropriate in line with the organizational objectives, quality system requirements & business needs.
